

Niyati Pithva

Python Developer | MERN Stack Developer | FastAPI Developer

+91 99984 36126 | niyatipithva1518@gmail.com | github.com/NiyatiPithva | linkedin.com/in/niyati-pithva-95b047329

SUMMARY

Full-stack developer with hands-on experience building web and mobile applications using the MERN stack and FastAPI. Skilled in designing scalable REST APIs, managing state with Redux, and integrating databases (MongoDB, MySQL). Passionate about clean code, problem solving, and delivering responsive user experiences.

EDUCATION

Master of Computer Applications (MCA) <i>Dharmsinh Desai University, Nadiad, Gujarat</i>	CGPA: 7.9
Bachelor of Computer Applications (BCA) <i>Dharmsinh Desai University, Nadiad, Gujarat</i>	CGPA: 7.8

TECHNICAL SKILLS

Languages	Python, Java, JavaScript, TypeScript
Frameworks / Libraries	React.js, Node.js, Express.js, FastAPI, React Native
Databases	MySQL, MongoDB
Core Concepts	DSA, DBMS, Operating Systems, Software Engineering
Tools	Git, GitHub, GitLab, Postman, Docker

PROJECTS

CarCure – Vehicle Service Booking Web App • Developed a full-stack web application for booking and managing vehicle services. • Implemented user authentication and authorization using JWT tokens. • Designed a responsive UI and managed application state with Redux. • Built RESTful APIs for service booking, user management, and service history tracking. • Used MongoDB to store user data, vehicle details, and service records. github.com/NiyatiPithva/car_cure	<i>React.js · Node.js · Express.js · MongoDB · Redux · JWT</i>
CarryCart – Bag Selling E-commerce Website • Developed an e-commerce platform for browsing and purchasing bags online. • Implemented cart management, order tracking, and a responsive user interface. • Built backend APIs for products, users, and orders. github.com/NiyatiPithva/carry_cart	<i>React.js · Node.js · Express.js · MongoDB · REST APIs</i>
Student Registration System • Developed a backend system for managing student registration and academic records. • Built REST APIs using FastAPI for full CRUD operations. • Integrated MySQL database using SQLAlchemy ORM. • Tested and validated all APIs using Postman. github.com/NiyatiPithva/student_registration_FastAPI_demo	<i>FastAPI · Python · SQLAlchemy · MySQL</i>
Portfolio Website • Built a fully responsive personal portfolio showcasing skills, projects, and experience. • Implemented smooth scroll reveal animations using IntersectionObserver. github.com/NiyatiPithva/Niyati_Portfolio	<i>HTML · CSS · JavaScript</i>

EXPERIENCE

Mobile App Developer Intern – Proses Web Technologies, Vadodara, Gujarat • Worked on frontend development and API integration in live production projects.
--

- Built features using React Native for cross-platform mobile applications.

ACHIEVEMENTS & ACTIVITIES

Applithon – MCA DDU

- Participated in a 36-hour hackathon organized by the MCA Department, DDU.
- Built Bharat Digi Yojana – a digital welfare portal using React.js, Node.js, Express.js, MongoDB, and TypeScript.
